

COMMITTEE FOR ADELAIDE

Our Vision

Our vision for Greater Adelaide is to be the most liveable, extraordinary and vibrant **global city** that people and organisations from all over the world want to be a part of while those who live here are proud to call home.

Our Mission

To provide independent thought leadership, advocacy, and influence policy for the benefit of our state, both now and into the **future**.

Who are we?

We are a-political, independent, and non-sector specific.

We bring together businesses, industry bodies, community and government to shape the most liveable city in Australia and the third most liveable city in the world.

We are visionary, long-term thinkers influencing and formulating ambitious policy.

We harness the strength, work and commitment of our members and partners to change mindsets and create opportunities for economic, social, and cultural growth.

We are outcome and future focused, working to solve the major challenges of tomorrow, today.
